| Page # | Primary pages |
|--------|----------------------------------|
| I | Title |
| II | Certification |
| III | Dedication |
| IV | Acknowledgment |
| V | Acknowledgment in Arabic |
| VI | Abstract |
| VII | Abstract in Arabic |
| VIII | Table of Contents |
| X | List of Figures |
| XI | List Photos and Tables, Appendix |

| Chapter One | Introduction | |
|-------------|--|----|
| 1-1 | General | 2 |
| 1-2 | Problem Definition | 3 |
| 1-3 | Project Area | 4 |
| 1-4 | Objectives and Advantages | 7 |
| 1-5 | Methodology of the work | 7 |
| 1-5-1 | First phase: data collection and survey | 8 |
| 1-5-2 | Second phase: design of erosion model | 8 |
| 1-5-3 | Third phase: writing the report and other related jobs | 9 |
| 1-6 | Definition of Terms | 10 |
| 1-7 | Organization of The Project | 11 |

| | | |
|--------------------|---|-----------|
| Chapter Two | GIS and Linear Referencing | 12 |
| 2-1 | Introducing GIS | 13 |
| 2-2 | GIS Definition | 14 |
| 2-2-1 | How GIS Works | 15 |
| 2-2-2 | Advantage of GIS | 15 |
| 2-2-3 | Types of GIS Data | 16 |
| 2-3 | GIS Application | 17 |
| 2-3-1 | Disaster Management | 17 |
| 2-3-2 | Crime Statistics | 18 |
| 2-3-3 | Archaeology | 18 |
| 2-3-4 | Civic Planning | 18 |
| 2-4 | Linear referencing Definition | 19 |
| 2-5 | Benefit of Linear Referencing | 21 |
| 2-6 | Linear referencing applications | 21 |
| 2-6-1 | Highways and streets | 21 |
| 2-6-2 | Transit | 22 |
| 2-6-3 | Railways | 23 |
| 2-6-4 | Oil and gas exploration | 24 |
| 2-6-5 | Pipelines | 25 |
| 2-6-6 | Water resources | 26 |
| 2-7 | Linear Referencing as a Process | 27 |
| 2-7-1 | Determine application, representation, and topology | 27 |
| 2-7-2 | Determining route structure | 28 |
| 2-7-3 | Determining measures | 29 |
| 2-7-4 | Create events | 29 |
| 2-7-5 | Display event data, cartographic output | 30 |
| 2-7-6 | Analysis with linear referencing | 30 |
| 2-7-7 | Data maintenance | 30 |

| | | |
|----------------------|--|-----------|
| Chapter Three | Data collection and Preparation | 38 |
| 3-1 | Linear Referencing Events | 39 |
| 3-2 | Surveying of Linear Referencing Events Using GPS | 41 |
| 3-3 | Event Table | 45 |
| 3-4 | Entering Data to the GIS | 49 |

| | | |
|---------------------|--|-----------|
| Chapter Four | Construction of Roads Maintenance Management Support System Using LRM | 51 |
| 4-1 | View the Data and Locate Abu Ktelah Street | 52 |
| 4-2 | Select Abu Ktelah Route and Put it in Layer | 53 |
| 4-3 | Create Routes | 54 |
| 4-4 | Abu Ktelah Route | 55 |
| 4-5 | Line and Point Event Tables | 56 |
| 4-6 | Add Rout Event to Abu Ktelah Route | 58 |
| 4-7 | Calculate the Maintenance Total Cost | 60 |
| 4-8 | Made a Symbology | 61 |
| 4-8 | Linear Referencing and Online ArcGIS Server | 63 |

| | | |
|---------------------|--|-----------|
| Chapter Five | Conclusion and Recommendation | 67 |
| 5-1 | Linear Referencing Events | 68 |
| 5-2 | Surveying of Linear Referencing Events Using GPS | 68 |

List of Figures

| | | |
|-----------------|--|---------------|
| Figure # | Description | Page # |
| 1-1 | Hebron City, location map | 5 |
| 1-2 | Location of Abu Ktelah Street | 6 |
| 2-1 | Real World Representation in GIS Model | 15 |

| | | |
|------|--|----|
| 2-2 | GIS Raster Data | 16 |
| 2-3 | GIS Vector Data | 17 |
| 2-4 | Line Feature Class | 20 |
| 2-5 | Pavement Conditions | 22 |
| 2-6 | Traffic Accidents in a Corridor Study | 23 |
| 2-7 | Analyzing Rail line Clearance | 24 |
| 2-8 | Posting and Labeling Seismic Lines and Shot points | 25 |
| 2-9 | Pipeline Coating Material Types are Being Examined | 26 |
| 2-10 | Identifying Monitoring Stations along a Hydrology Network | 27 |
| 2-11 | Defining Routs | 28 |
| 2-12 | Measurement System Along Each Linear Feature | 32 |
| 2-13 | Feature Unique Identifier | 32 |
| 2-14 | Measurement System Stored | 33 |
| 2-15 | Lines With Many Paths | 33 |
| 2-16 | Various Types of Events | 36 |
| 2-17 | Storing Features Using Relative Locations | 37 |
| 4-1 | Hebron City Street Database, GIs Department Hebron ,2017Municipality | 52 |
| 4-2 | Take out the Street in the Layer | 53 |
| 4-3 | Creates Routes | 54 |
| 4-4 | Abu Ktelah Route | 55 |
| 4-5 | Line Event Table | 56 |
| 4-6 | Point Event Table | 57 |
| 4-7 | Add Route Event to Abu Ktelah Street | 58 |
| 4-8 | Abu Ktelah Route and its Line Event Table | 59 |
| 4-9 | Abu Ktelah Route and its Point Event Table | 59 |
| 4-10 | Calculate the Total Cost of Maintenance | 61 |
| 4-11 | Line Event | 62 |
| 4-12 | Point Event | 63 |
| 4-13 | ArcGIS Server | 64 |

| | | |
|------|-----------------------|----|
| 4-14 | Online ArcGIS Web Map | 65 |
|------|-----------------------|----|

| Appendix | Description | Page # |
|-----------------|------------------------|---------------|
| Appendix I | Map 1(Line Event Map) | 71 |
| Appendix II | Map 2(Point Event Map) | 72 |

List of Tables

| Table # | Table Name | Page # |
|----------------|--|---------------|
| Table (1-1) | Different Surveying Elements | 7 |
| Table (1-2) | Phases of the Project with their Expected Duration | 8 |
| Table (1-3) | Definitions of Terms | 10 |
| Table (3-1) | Line Events | 39 |
| Table (3-2) | Surveyed Line Events | 45 |
| Table (3-3) | Surveyed Point Events | 47 |
| Table(4-1) | Events Maintenance Cost Street Department | 60 |

List of Photo

| Photo # | Description | Page # |
|----------------|------------------------------------|---------------|
| Photo (1) | Cracks Event | 41 |
| Photo (2) | Asphalt Crack Event | 43 |
| Photo (3) | Pavement Section Event | 44 |
| Photo (4) | Hole Event in the Middle of Street | 45 |
